Dear Parent / Carer,

The sun isn't just a danger when we are on holiday in hotter countries. Here in the UK, exposure to the sun also presents risks that many of us are unaware of:

 Almost one in five (19%) adults admit to never wearing sun protection.

 38% said that they never use sun protection on their children

Points to remember are:

Play in the shade and always remember to 'Wrap, Splat, Hat'.

We ask that you allow your child to bring to school, each day sun protection cream, lotion or spray that you use for their skin or make sure that you put sun cream on your child before school on sunny days. Also please could you provide your child with a sun hat to limit their exposure.

Kind regards,

Miss Richardson
Business Manager

P.S Please ensure your child's sun protection cream is labeled to avoid confusion when returning the bottles to their owners.
