

School Improvement Plan 2021-2022

These are the things we will be
working on this year.

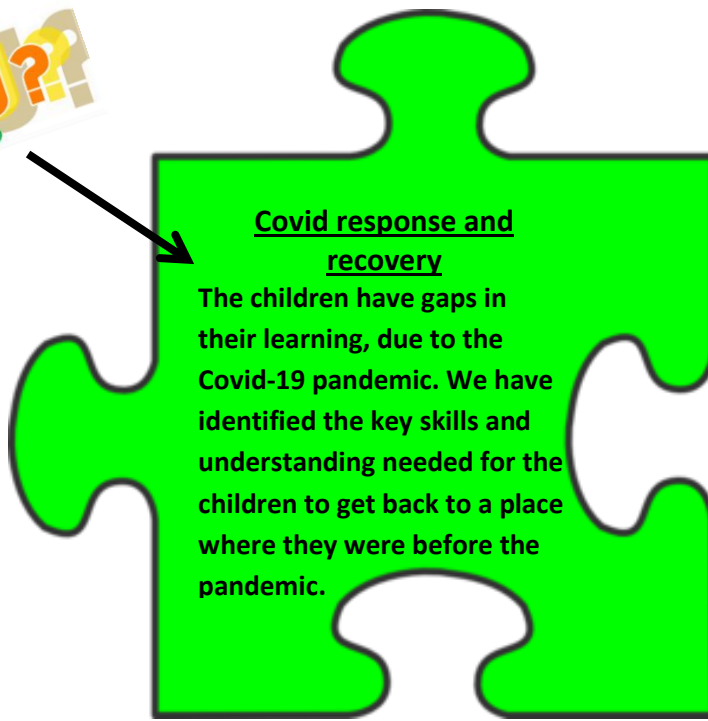

Keep a look out for updates
about how we are getting
on in the newsletters!

Make sure your child does their homework and reads every night.

Look out for our curriculum workshops!

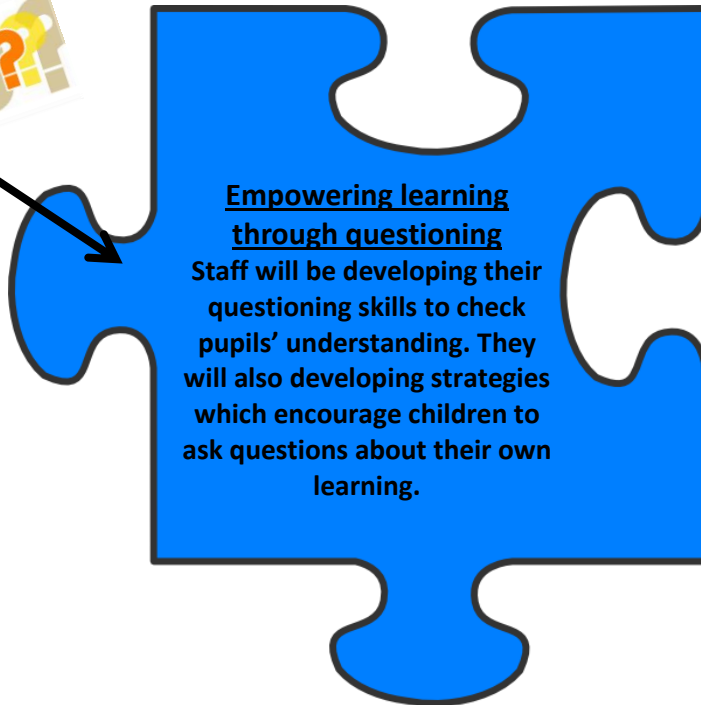

Covid response and recovery

The children have gaps in their learning, due to the Covid-19 pandemic. We have identified the key skills and understanding needed for the children to get back to a place where they were before the pandemic.

Ask your child questions about what they have been learning in school.

Empowering learning through questioning

Staff will be developing their questioning skills to check pupils' understanding. They will also develop strategies which encourage children to ask questions about their own learning.

Are you willing to come into school to talk about the job you do?

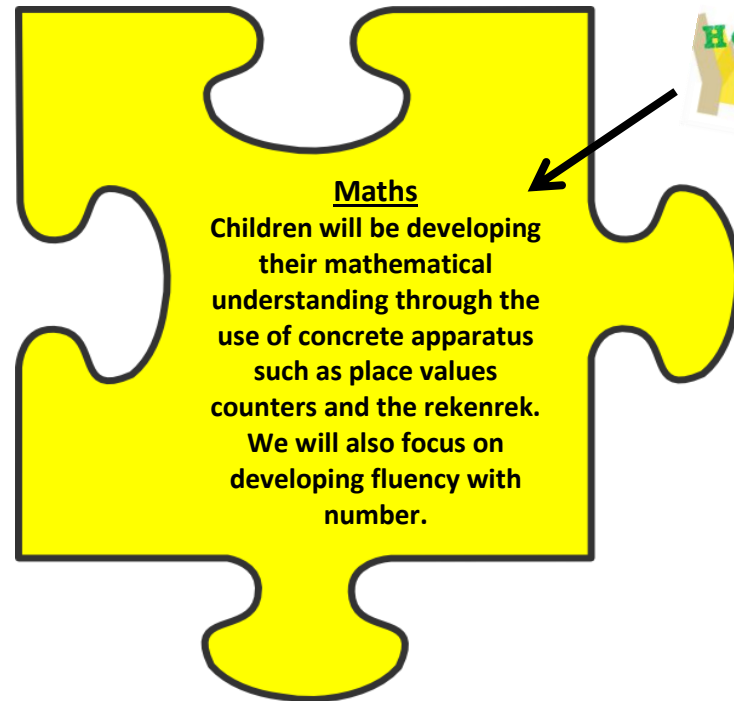

Diversity, aspiration and inclusion

We will be reviewing our curriculum to make sure it reflects and celebrates the diversity of our school community. We will also be inviting people in to talk about the jobs they do.

Encourage your child to practice their number bonds and timetables.

Maths

Children will be developing their mathematical understanding through the use of concrete apparatus such as place value counters and the rekenrek. We will also focus on developing fluency with number.

Look out for our maths workshops!
