

Meet Mrs Ganner

Maths is awesome. It's really exciting using skills to solve problems with our friends.

I have worked at Ravensbury a really long time. For over 18 years!

I love to read books and use different voices and faces when I read stories. Pretending to be characters is so much fun.

Watching children learn is absolutely, my most favourite thing to do. I love thinking of challenges for children to complete. I can't wait to see my new class.

My favourite way of learning is by singing and dancing. It helps me to remember what we are learning about.
