

Meet Miss Conway

I love to learn outside and play games to help me discover new and interesting things.

I think books are a fabulous way of finding out about the world around me.

I like to help children with their reading. Talking about books and what is happening in them is great. We love to read in school.

My favourite types of activities are the ones where we create together. I like to improve and I always try my hardest to apply the skills I have.

I have worked with children for a long time. I think it's the best job in the world. I have a big smile on my face when I come to work.
